

FOR SALE
\$5,200,000

This expansive, fully operational indoor cultivation facility in Desert Hot Springs is a rare opportunity for cannabis operators looking to establish or expand their presence in Southern California. Strategically located with easy access to major markets, this facility benefits from the city's business-friendly environment, lower operational costs, and reduced security risks compared to more congested regions. Equipped with 556 high-performance FHose LED flower lights, this 32,000 SF freestanding, gated facility is primed for efficient, high-yield cannabis production. Seize this opportunity to acquire a premium cultivation facility. Contact us today for additional details!
